- 2) Extinguishing media: Use water fog, foam, dry chemical or CO2
- 3) Autoignition temperature: Not Applicable
- 4) Special fire fighting procedures and precautions: Material will not burn unless preheated. Do not enter confined fire space without full bunker gear(helmet with face shield, bunker coats, gloves and rubber boots). Cool fire exposed containers with water.
- 5) Unusual fire and explosion hazards: Treat as a solid that can burn. Molded parts generally burn slowly with a low smoke density and flaming drips. Under certain conditions can burn with a high smoke density.

#### SECTION 6. ACCIDENTAL RELEASE MEASURES

- 1) General information: Use proper personal protective equipment
- 2) Spill/leaks: Clean up spills immediately. Sweep up, then place into a suitable container for disposal.

#### SECTION 7. HANDLING AND STORAGE

- 1) Handling: Wash thoroughly after handling. Remove contaminated clothing and wash before reuse. Avoid contact with eyes, skin, and clothing. Avoid ingestion and inhalation.
- 2) Storage: Store in a cool, dry place. Keep container closed when not in use.

#### SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

- 1) Engineering controls: Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits. Use process enclosure, local exhaust ventilation, or other engineering controls to control airborne levels.
- 2) Personal protective equipment
  - ① Eye: Wear safety glasses and chemical goggles if splashing is possible.
  - ② Skin: Wear appropriate protective gloves and clothing to prevent skin exposure.
  - ③ Clothing: Wear appropriate protective clothing to minimize contact with skin.
  - ④ Respirators: Use approved supplier air respiratory protection.
